PART 1010—SUSPENSION ORDERS

[Suspension Order S-796, Revocation]

MAX LAWRENCE & CO.

Suspension Order No. S-796 was issued against Max Lawrence and Company, a partnership composed of Max Lawrence and Elsie Lawrence, 13 West 37th Street, New York City, engaged as a "converter" of textiles. There was an appeal to the Chief Compliance Commissioner who granted a stay and on July 31, 1945, denied the appeal and reinstated the suspension order to run through March 9, 1946. The appeal has again been considered and, as a result of further investigation, the Chief Compliance Commissioner has directed that the suspension order be revoked forthwith.

In view of the foregoing, it is hereby ordered, that: § 1010.796 *Suspension Order No. S-796* be revoked.

Issued this 22d day of January 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, as Amended Jan. 22, 1946]

INVENTORIES

(a) What this regulation does.

General Restrictions

- (b) Restriction on delivery.
- (c) Restrictions on receipts.
- (d) Restriction on ordering more than needed.
- (e) Adjusting outstanding orders when requirements change.
- (f) Restriction on processing.

Exceptions

- (g) In general.
- (h) Receipts permitted after contract cancellations or cut-backs.

Miscellaneous Provisions

- (i) Previous inventory authorizations.
- (j) Separate inventories.
- (k) Redistribution of excess inventories.
- (l) Violations.
- (m) Revisions of tables.
- (n) Appeals, letters and questions.

§ 944.53 *Priorities Regulation 32*—(a) *What this regulation does.* This regulation contains the inventory rules formerly in § 944.14 of *Priorities Regulation 1* and in *CMP Regulation 2*. Its purpose is to prevent excessive inventories by restricting ordering, deliveries, receipts and processing of materials in short supply. All kinds of materials are covered including raw or semi-fabricated materials, commodities, equipment, accessories, parts, assemblies or products of any kind, whether or not acquired with priorities assistance.

The general rule on receipts is in paragraph (c) (1), and this is controlling unless a more specific limitation or exception is indicated in Table 1 or 2 or a direction to this regulation, or unless Table 3 (formerly Order M-161) exempts the material entirely. Other exceptions to the inventory limitations are stated in paragraphs (g) and (h) and in directions to this regulation.

General Restrictions

(b) *Restriction on delivery.* No person may deliver any material if he knows or has reason to believe that acceptance of the delivery would be in violation of this regulation.

NOTE: For rule on making or delivering material earlier than required by customers, see Interpretation 3.

(c) *Restrictions on receipts*—(1) *General rule.* A person may not accept delivery of any material if his inventory of that material is, or will be, more than a practicable minimum working inventory reasonably necessary to meet his own deliveries or to supply his services on

the basis of his current or scheduled method and rate of operation.

NOTE: For rule on when material is considered to be in inventory, see Interpretation 4; for rule as to seasonal industries, see Interpretation 1.

(2) *Special rules in Tables 1 and 2.* If Table 1 at the end of this regulation shows a special inventory limit on a particular material or product (either specifically or by reference to another CPA order or regulation), that limitation governs and the restrictions of paragraph (c) (1) above may be disregarded unless the applicable order or regulation (or a note in Table 1) also states that a practicable minimum working inventory may not be exceeded. The same is true with respect to particular classes of persons shown on Table 2. Where a specific period of time is shown on Table 1 or 2, no person affected may accept delivery of any material specified if his inventory of it is, or will be, more than he needs during the immediate period specified on the basis of his current or scheduled method and rate of operation. Even if an order or regulation is not listed on Table 1 or 2, any specific inventory limits imposed by it must be complied with. If an order or regulation listed on Table 1 or 2 is revoked or a listing removed from the tables all provisions of this regulation, including paragraph (c) (1), are automatically applicable.

(3) *Early delivery of steel, iron products, copper and copper base alloys.* Early delivery, up to 15 days before the requested delivery month, may be accepted from a producer of steel, iron products, copper or copper base alloys (in the forms listed on Table 1), but the producer may not make the early delivery if it would interfere with any rated orders. Other special rules on these materials are explained in Table 1.

(d) *Restriction on ordering more than needed.* (1) A person may not place any order, whether rated or unrated, for delivery of any material on earlier dates or in larger amounts than he would be permitted to receive under this regulation. Orders aggregating more than he is allowed to receive may not be placed with different suppliers even though he intends to cancel one or more of them before delivery. However, this restriction does not apply to materials listed on Table 3 of this regulation nor to purchases by ultimate consumers for personal or household use. The restriction does not forbid the placing of orders for delivery under the conditions explained in Interpretation 11 to *Priorities Regulation 1*, but such orders may not be scheduled for production as long as this restriction is effective.

(2) This restriction does not require immediate adjustment of orders placed before August 28, 1945. However, in view of its policy to prevent hoarding and speculative buying of materials in short supply, the CPA may direct adjustments or cancellations in individual cases where orders are in excess of reasonably anticipated needs especially where failure to do so might result in unbalanced distribution and curtail total production.

(3) If the inventory limits applying to any material are made more restrictive,

whether by a change in Table 1 or otherwise, any person affected must immediately cancel, reduce or defer any order for the material to the extent that the scheduled delivery would result in an inventory greater than permitted by the new restriction and other applicable provisions of this regulation.

(e) *Adjusting outstanding orders when requirements change.* If because of a change in operations, slowing or stoppage of production, delayed delivery by a supplier, or any other change in requirements, a person who has ordered material for future delivery would, if he accepted delivery on the date specified, exceed the limits prescribed by this regulation, he must promptly adjust his outstanding orders, and, if necessary, postpone or cancel them. Paragraph (h) below describes what further deliveries may be accepted.

(f) *Restriction on processing.* No person may process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of the material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will be, more than a practicable minimum working inventory. However, this does not restrict a person from altering the form of surplus materials by scraping or reprocessing them, unless a CPA order specifically says otherwise.

Exceptions

(g) *In general.* This paragraph, paragraph (h) below, and certain directions to this regulation state general exceptions to the restrictions on acceptance of delivery described in paragraph (c) above, and to all other inventory restrictions on delivery and acceptance of delivery in CPA orders and regulations unless they contain specific provisions to the contrary. None of these or any other exceptions to CPA inventory restrictions on receipts permit a supplier to disregard any applicable CPA order or regulation which restricts production or delivery.

(1) *Exemption of Table 3 materials.* Materials listed on Table 3 at the end of this regulation may be delivered and accepted without regard to CPA inventory restrictions.

(2) *Materials bought under PR-13.* *Priorities Regulation 13* provides a limited exemption from inventory restrictions in the case of items bought on special sales.

(3) *Imported materials.* A person may import any material without regard to CPA inventory restrictions, but if his inventory of it thereby becomes in excess of the amount permitted by this regulation, he may not receive further deliveries of it from domestic sources until his inventory is reduced to permitted levels. The inventory restrictions of this regulation do apply to any deliveries of the imported material he makes, and to the amount of it that any person accepting delivery from him may receive.

(4) *Advance stockpiling for civilian production.* A person may receive in anticipation of starting or resuming civilian production the minimum amount

of material he would need during the first 30 days of such production, provided no priorities assistance is used to get the material. Records of such receipts and the basis on which they were computed must be preserved as required by § 944.15 of Priorities Regulation 1. This 30-day amount is a ceiling as far as advance stockpiling is concerned, and may not be considered as a "bonus" to be added to the amount of any material which a producer expects to have available for making his civilian product. Changes in this 30-day amount may be indicated for a particular material by a note in Table 1.

(5) *Minimum sale quantities.* Minimum sale quantities and production runs may be accepted to the extent permitted by Interpretation 2 to this Regulation. However, where Column 3 of Table 1 shows a specific amount of a particular material, that is considered to be the minimum sale quantity of it. Thus, if a person would be permitted under paragraph (c) to accept less than the amount shown, he may accept delivery of the full amount. In any event, after receiving a minimum sale quantity of any material, a person may not accept delivery of any additional quantities until his inventory of it is within applicable limits.

(6) *Small inventory exemption for particular materials.* If a note in Table 1 or 2 shows a specific amount of a particular material as a small inventory exemption, a person may accept delivery of any quantities of it as long as his total inventory of it after acceptance is no more than the specified amount.

(h) *Receipts permitted after adjustment of orders.* Where a person has promptly adjusted his outstanding orders with his supplier as required by paragraph (e) and the supplier is not otherwise prohibited from producing or delivering any material involved, delivery of it may be made and accepted and the inventory restrictions of paragraph (c) exceeded to the following extent only:

(1) Delivery may be made and accepted if the supplier has shipped the material or loaded it for shipment before the receipt of the instruction to adjust; or

(2) Delivery may be made and accepted of any special item which the supplier actually has in stock or in production or special components or special materials which he has acquired for the purpose of filling that contract. A special item, as used above, means one that the supplier does not usually make, stock, or sell, and which cannot readily be disposed of to others; or

(3) Even if the material is not a special item, delivery may be made by and accepted from a producer if it has al-

ready been produced or is in production before receipt of the instruction to adjust, and it cannot be used to fill other orders on the producer's books.

NOTE: For special rules on continuing receipts of special items after contract cut backs, see Direction 3 to this regulation; and as to transfers of idle materials after cancellations or cut backs, see Direction 1. For effect of reduction in consumption rate on permitted inventories, see Interpretation 5.

Miscellaneous Provisions

(i) *Previous inventory authorizations.* Any specific authorizations, exceptions, or grants of appeals issued under § 944.14 of Priorities Regulation 1 or CMP Regulation 2 remain in effect according to their terms unless individually modified or revoked.

(j) *Separate inventories.* (1) In figuring his inventory, a person must include all material in his possession and all material held for his account by another person, but not material held by him for the account of another person.

(2) In the case of a person who on August 28, 1945, has more than one operating unit and keeps separate inventory records for them, this regulation applies to each such operating unit or division independently. A person may not make any further separation or consolidation of such operating units without special written approval of the Civilian Production Administration, unless it is purely incidental to a separation or consolidation which is made primarily for other than inventory purposes.

(k) *Redistribution of excess inventories.* Excess inventories of materials and products, including inventories of materials which are in such form as to be unusable by the holder, are subject to redistribution to other persons by voluntary action pursuant to Priorities Regulation 13, or if necessary for national defense, through requisitioning by the Civilian Production Administration.

(l) *Violations.* Any person who willfully violates any provision of this regulation, or who, in connection with this regulation, willfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(m) *Revisions of tables.* Tables 1, 2 and 3, attached to this regulation will be revised from time to time. As materials and products become in more ample supply, it is expected that they will be listed

on Table 3. In special cases, particular materials or products may also be removed from Table 3 or added to Table 1. It is, therefore, important to be familiar with the latest revision of the tables.

(n) *Appeals, letters and questions.* Any appeal or other question regarding any provision of this regulation should be sent by letter in duplicate to the Inventory Control Division, Civilian Production Administration, Washington 25, D. C., Ref.: PR 32, unless Table 1 or 2 attached to this regulation indicates otherwise with respect to particular materials or classes of persons.

Issued this 22d day of January 1946.

TABLE 1—MATERIALS AND PRODUCTS SUBJECT TO SPECIFIC INVENTORY PROVISIONS

Explanation. Materials or products listed in Column 1 are subject to the specific inventory provisions shown, as explained in paragraph (c) (2) of the regulation, except to the extent that different rules may apply as to certain classes of persons under Table 2.

Column 2 shows either the CPA order or regulation which controls inventories of the material, or if no order is specified, there is shown a period of time representing the maximum inventory permitted as explained in paragraph (c) (2). An asterisk (*) indicates that the practicable minimum working inventory limit of paragraph (c) (1) also applies, that is, if it would be less than the specific limit indicated.

If Column 2 shows a specific period of time (e. g., 30 days, 60 days, etc.) for a particular material or product, this restriction applies only to "users" of that material or product, i. e., persons, including Government operated consuming establishments, who use the material or product for production, operating supplies, maintenance and repair, or for construction whether for own account or for the account of another. In addition, the restriction applies only within the 48 States and the District of Columbia. In the case of persons who are not "users", such as persons buying for resale, paragraph (c) (1) applies instead of Column 2.

A figure in Column 3 shows the minimum sale quantity, that is, the amount of the particular material which a person may receive under the conditions stated in paragraph (g) (5), even if it is more than allowed under Column 2. If no figure is shown, the rule in Interpretation 2 must be followed.

Column 4 tells the Division or Office in the Civilian Production Administration to which should be sent any appeals or questions regarding the limitations described. However, if the applicable order says appeals are to be filed somewhere else, such as the nearest CPA field office, that provision controls.

Column 5 (Remarks) gives explanations, exemptions or other special rules applicable to the particular material or limitation.

INTERPRETATION 1

INVENTORIES IN SEASONAL INDUSTRIES

Paragraph (c) (1) of Priorities Regulation 32 prohibits any person from accepting a delivery which will give him "more than a practicable minimum working inventory reasonably necessary to meet his own deliveries on the basis of his current or scheduled method and rate of operation". This does not prevent a person engaged in a seasonal industry who normally stocks up inventory in advance of the season from accepting delivery of his requirements of the inventory in question, provided (a) that he is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Aug. 28, 1945.)

INTERPRETATION 2

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Priorities Regulation 32 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (c) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum amount needed."

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation 32 or his "minimum amount needed" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells or less

than his minimum production run of a product which is mass produced under the conditions explained in Interpretation 3 of Priorities Regulation 1.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Civilian Production Administration for permission, stating the facts and why it is not practicable to satisfy the condition of paragraph (b).

(d) *Special provisions for certain materials.* Where a specific minimum sale quantity is shown in Column 3 of Table 1 of Priorities Regulation 32 with respect to any material or product, that quantity controls instead of the rule in this interpretation.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Oct. 1, 1945.)

INTERPRETATION 3

MAKING OR DELIVERING MATERIAL EARLIER THAN REQUIRED BY CUSTOMERS

(a) Paragraph (b) of Priorities Regulation 32 prohibits a person from knowingly making a delivery which will give his customer more than the latter is permitted to receive under the regulation. Paragraph (f) of that regulation prohibits a person from processing or fabricating material if his inventory of the material in its processed or fabricated form will be more than a practicable minimum working inventory. These two restrictions should be borne in mind by any supplier who wants to make or deliver any material to his customer earlier or in greater quantities than required by the customer.

(b) For example: A supplier has accepted his customer's order of a product to be delivered at the rate of 100 a month for six months. The supplier would like to ship 200 a month for three months, or perhaps the entire 600 in the first month. Since the customer's requirements of 100 a month are presumably all he could accept within the inventory limitations of paragraph (c) of the regulation, the requirement that the supplier may not knowingly ship more than this would prevent him from delivering earlier than required by his customer, unless he received notice from his customer that the receipt of the larger amount would not cause him to have an excess inventory.

(c) Thus, before delivering a material or product substantially earlier or in greater quantities than is called for by his customer's order, a supplier is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The supplier may rely on any statement or notice to this effect from

his customer, unless he knows or has reason to know that it is false.

(d) Similarly, assuming his customer would not be permitted to receive the larger quantities, the supplier should take this into account in his plans for processing the material or product so that he himself will not have an inventory greater than permitted by paragraph (f) of the regulation.

(e) This interpretation, of course, does not change the rule on delivery or acceptance of minimum sale quantities or production runs to the extent described in Interpretation 2 to this regulation, nor does it prevent earlier delivery of iron products, steel, copper and copper base alloys under the conditions described in paragraph (c) (3) of Priorities Regulation 32. Also, if any CPA order or regulation permits increased deliveries to the extent necessary to avoid shipping partly filled containers (such as paragraph (y) (4) of Order M-300), the rule in this interpretation does not prevent such deliveries. (Issued Oct. 1, 1945.)

INTERPRETATION 4

INVENTORY MATERIAL

(a) Paragraph (c) of Priorities Regulation 32 prohibits a person from accepting delivery of material if his inventory of it is, or will be, greater than the maximum prescribed. For the purpose of this regulation, material is considered to be inventory until it is actually put into process or is actually installed or assembled. Putting into process does not include minor initial operations, such as painting, and does not include any shearing, cutting, trimming or other operation unless such initial operations are part of a continuous fabricating or assembling operation. Nor does it include operations such as inspection, testing and ageing nor segregation or earmarking for a specific job or operation.

(b) For example, if a manufacturer who uses wire or rod cuts a sufficient quantity of it to length at one time to maintain his operations for a considerable period of time, the cut pieces remain as inventory until processed into another form or until assembled or installed.

(c) If a manufacturer purchases and stores steel castings in the form purchased, the steel castings are not put into process when the castings are painted and stored. Consequently, the inventory of castings includes those painted and stored.

(d) If a manufacturer shears steel sheet and stocks in sheared form, such stock is still part of his inventory, if the material does not continue in production. (Issued Aug. 28, 1945)

INTERPRETATION 5

EFFECT OF REDUCTION IN CONSUMPTION RATE ON PERMITTED INVENTORIES

(a) Paragraph (c) of Priorities Regulation 32 prohibits the acceptance of delivery of material if a person's inventory of it is, or will be, more than the amount permitted by the regulation. If material is acquired within these restrictions, the regulation does not prohibit the mere possession of an inventory if a change in circumstances makes it greater than the amount permitted. For instance, if based upon current rate of production a manufacturer's permitted inventory of one item of steel is 100 tons and he has in inventory 60 tons, he may receive a further delivery of 40 tons. If after receiving the delivery of 40 tons his rate of consumption, because of contract cancellation or the like, is reduced drastically, the mere fact that he has an inventory of 100 tons, although his permitted inventory may be only 10 tons, is not a violation of the regulation. He may not, of course, accept any further deliveries of that item of steel until

his inventory has been reduced below 10 tons (except as provided in paragraph (h) of Priorities Regulation 32 and Direction 3 to that regulation, relating to material already shipped, special items, etc.)

(b) Similarly, the regulation does not affect the liability of a customer for material in inventory when the customer cancels his contract. Such liability is controlled by the provisions of the contract between the customer and his supplier and by contract law. (Issued Aug. 28, 1945)

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 32, Direction 7, as Amended Jan. 22, 1946]

NEWSPRINT INVENTORIES

The following amended direction is issued pursuant to PR 32:

(a) *Purpose.* In view of the continued shortage of newsprint, this direction restricts deliveries of newsprint to all users based upon their inventory. It tells a user how many days' inventory he may have based on his average daily consumption during the last six months of 1945. It also requires all users of newsprint to report monthly on the amount of newsprint in inventory.

(b) *Definitions.*—(1) *Newsprint.* "Newsprint" means the grades of paper commonly known as "standard newsprint" and "super-standard newsprint".

(2) *Inventory.* "Inventory" means all the newsprint which is owned by a user or is available for his use. It includes the newsprint which he has on hand, in storage, and in transit and paper held for his use by a paper merchant, warehouseman or other person regardless of its physical location. However, it does not include newsprint shipped by water and held in warehouse by a paper manufacturer or merchant as part of the inventory of the manufacturer or merchant; such paper does not become part of a user's inventory until it is delivered to him.

(c) *Inventory ceiling.* No user may accept delivery of newsprint in any calendar month if he has reason to believe his inventory will by virtue of such acceptance become on the last day of the month greater than: (1) 30 days' supply for users in the states named in List A, (2) 50 days' supply for users in the states named in List B, or (3) 60 tons for users who would be limited to a smaller amount by subdivision (1) or (2) above.

SECTION 1. Maximum prices for flour from wheat, semolina and farina. Regardless of any contract, agreement or other obligation, no person shall sell or deliver, or agree, offer, solicit or attempt to sell or deliver, and no person shall in the course of trade or business buy or receive any flour from wheat, semolina or farina at prices higher than the maximum prices permitted by Appendix A hereof: *Provided*, That any contract entered into while the original Maximum Price Regulation No. 296 was in effect may be performed according to its terms if such contract complies with the provisions of said original Maximum Price Regulation No. 296; and *Further provided*, That any contract entered into prior to June 1, 1944, may be performed according to its terms, notwithstanding the changes in maximum prices specified by Amendment No. 3, issued May 31, 1944, if such contract complies with the maximum prices established prior to June 1, 1944, and with all of the other provisions of Revised Maximum Price Regulation No. 296.

[Sec. 1 amended by Am. 3, 9 F.R. 5985, effective 6-1-44]

Sec. 2. Less than maximum prices. Lower prices than those set forth herein may be charged, demanded, paid or offered.

Sec. 3. Applicability. The provisions of this Revised Maximum Price Regulation No. 296 are applicable to the forty-eight states and the District of Columbia and supersede Maximum Price Regulation No. 296 as to all flours mentioned in section 1 hereof.

Sec. 4. Adjustable pricing. Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending; but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by an official of the Office of Price Administration to whom the authority to grant such authorization has been delegated. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

Sec. 5. Evasive practices. The provisions of this regulation shall not be evaded, whether by direct or indirect methods, in connection with any offer, solicitation, agreement, sale, delivery, purchase, or receipt of or relating to flour from wheat, semolina and farina alone or in conjunction with any other commodity, or by way of commission, service, transportation, or other charge, or discount, premium, or other privilege, or by

tying agreement, or other trade understanding or by any other means.

Sec. 6. Records and reports. Every person making a purchase or sale of flour from wheat, semolina or farina in the course of trade or business shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records for each such purchase and sale, including the date thereof, the names of the seller and purchaser, a description of the commodity sold and the price paid: *Provided*, That in the case of sales of ten hundred weights or less the seller and purchaser shall keep only such records as they customarily kept at the effective date of this regulation.*

Sec. 7. Carrying charges. Carrying charges may be added to the maximum prices for flour from wheat, semolina and farina set forth in Appendix A hereof, other than those maximum prices set forth in section VI of Appendix A. Such carrying charges shall not exceed $\frac{1}{2}$ of a cent per hundredweight per day for each day's delay in shipment beyond 60 days from the date of the contract of sale or beyond the delivery date specified under such contract, whichever is later, which is caused by the failure of the buyer to furnish shipping instructions (and necessary containers, if sale is made on a bulk basis) in accordance with the specifications of the contract of sale.

Sec. 8. Enforcement. Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, and suits for treble damages, and proceedings for suspension of licenses, provided for by the Emergency Price Control Act of 1942, as amended.

Sec. 9. Federal and State taxes. Any tax upon, or incident to, the sale, delivery, processing or use of flour from wheat, semolina or farina, imposed by any statute of the United States or statute or ordinance of any state or subdivision thereof, shall be treated as follows in determining the seller's maximum price for such commodity and in preparing the records of such seller with respect thereto: If the statute or ordinance imposing such tax does not prohibit the seller from stating and collecting the tax separately from the purchase price, and the seller does separately state it, the seller may collect, in addition to the maximum price, the amount of the tax actually paid by him or an amount equal to the amount of tax paid by any prior vendor and separately stated and collected from the seller by the vendor from whom he purchased: *Provided, however*, That the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any product covered by this Revised Maximum

Price Regulation No. 296, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated as a tax for which a charge may be made in addition to the basic price. Whenever in this Revised Maximum Price Regulation No. 296 a maximum price is determined by adding a transportation charge to a basic price, the transportation charge shall be the charge computed by using the applicable transportation rate and adding thereto 3% of said transportation charge.

Sec. 10. Sales to government agencies under special circumstances—(a) Exemption of emergency purchases. Whenever circumstances of emergency make a purchase by the United States or any of its agencies imperative and it is impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, such purchases and deliveries may be made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1* of the General Maximum Price Regulation, as amended: *Provided, however*, That the Administrator may by order waive the reporting of any part of the information required by section 4.3 (f) in connection with the particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances and he may in lieu thereof require the reporting of other information more suited to the circumstances.

Sec. 13. Licensing. The provisions of Licensing Order No. 1* licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. PART 1499—COMMODITIES AND SERVICES

[RMFR 165, Rev. Supp. Service Reg. 44]

LAUNDRY AND DRY CLEANING SERVICES

Supplementary Service Regulation No. 44 is redesignated Revised Supplementary Service Regulation No. 44 and is revised and amended to read as follows:

A statement of the considerations involved in the issuance of this Revised Supplementary Service Regulation No. 44 has been filed with the Division of the Federal Register. For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599, and 9651, Revised Supplementary Service Regulation No. 44 is hereby issued. The specifications and standards set forth in this regulation are those which prior to the issuance of the regulation, were in general use by the trade.

SECTION 1. Services covered—(a) In General. This regulation applies to all services generally supplied by laundry or dry cleaning establishments including, but not limited to, the following services: cleaning, pressing, washing, dyeing, mothproofing, waterproofing, storing, alterations, rug cleaning or dyeing, diaper supply, and linen supply services. The provisions of Revised Maximum Price Regulation 165 as applicable to laundry or dry cleaning services are modified to the extent provided by this supplementary service regulation.

(b) *Applicability of Revised Maximum Price Regulation 165.* Except as provided to the contrary, all other provisions of RMFR 165 and any applicable supplementary service regulation shall ap-

¹⁰ 8 F.R. 4132, 5987, 7662, 9998, 15193; 9 F.R. 1036, 5435, 5923, 7201, 9835, 11273, 12919, 14436; 10 F.R. 863, 923, 2432.

ply to the services subject to this regulation.

SEC. 2. Maximum prices. (a) You must apply to the appropriate District Office of OPA for establishment of a maximum price for any "new laundry or dry cleaning service" first supplied by you after December 31, 1944.

(b) The maximum price for a service to be established under this regulation shall be a price in line with the level of maximum prices existing in your trading area for the same or fairly equivalent service, or if the same or fairly equivalent service is not offered in your trading area, then in a closely comparable trading area.

(c) An application for a price on a proposed new service must be denied if the distinguishing feature of a new service is the addition of a new feature to an old service, or better performance of that service, or an improvement or voluntary change in the method of processing that service which is insubstantial and which has not been customarily recognized as differentiating the service in terms of price.

(d) You may not sell the service for which a maximum price is requested hereunder until that price has been approved by OPA, but the proposed price shall be considered approved twenty days after the application is received by the appropriate OPA office (or all additional requested information has been received) unless, within that time, OPA notifies you that your proposed price has been disapproved. In the event of automatic approval by lapse of the 20 day period, the OPA may at any time thereafter review, disapprove, or revise your prices, and if your prices are not established in accordance with the provisions of this section, OPA may fix new maximum prices for you in conformity with such provisions.

SEC. 3. Deposits and insurance—(a) Deposits. Unless authorized by OPA, you may not require a deposit for any reason if you did not do so in March 1942, nor may you now increase any such deposit.

(b) **Insurance.** Unless authorized by OPA, you may not make an extra charge for insurance, if you did not do so in March 1942, nor may you now increase any such insurance charge made during that month.

SEC. 4. Moving of business. If you move your laundry or dry cleaning establishment out of your trading area or if you acquire the business or equipment of another supplier and move it out of the trading area, you must apply to OPA for establishment of your maximum prices under section 2. If you move the business in the same trading area, you must keep the same maximum prices.

SEC. 5. Branch outlets.—(a) New outlets. If you own one or more selling units and you open a new unit after December 31, 1944, you must apply to OPA for establishment of your maximum prices for that unit under section 2, except if you close a selling unit and open another one in the same trading area, your maximum prices for the new unit shall be the same as those of the unit you closed.

(b) **Uniform pricing.** If you own or operate retail laundry or dry cleaning outlets and desire to establish the practice of selling services at uniform prices in all of your establishments located in a community or trading area, you may apply to the Administrator of the Office of Price Administration, Washington, D. C., for uniform pricing authorization.

(c) **Independent outlets.** If you operate an "independent retail distribution outlet" and are supplied at a discount from retail list prices by a plant which also has established retail maximum prices, you may elect to take the maximum retail prices of your supplier for such services by filing a notification of such election with your Price Control Board showing your name and address, the name and address of your supplier and the supplier's retail list of maximum prices which you have elected to take. In the event you make the election, a change in your supplier or his maximum prices will affect your maximum prices accordingly.

(d) **Outlets supplied by wholesalers.** Where it appears that increased service cost to retail outlets, resulting from adjustment of the maximum prices of a plant supplying services at wholesale prices not based on a discount from retail list prices, cannot be absorbed by such outlets supplied without substantial financial hardship, OPA may in the order granting adjustments to the supplier also authorize adjustment of the maximum prices of such outlets to make allowance in whole or in part for the increased service cost.

SEC. 6. Failure to apply, file or defective filing. (a) If you failed to file an application for a maximum price for a new service as required by this regulation, OPA may fix new maximum prices for you in conformity with the provisions of section 2 of this regulation, and such prices may be made retroactive to the time of the first sale of such service. If you failed to keep the records or file a complete and correctly determined statement of prices as required by RMPR 165 or if the prices which you filed were incorrectly determined, regardless of when you commenced offering any services, the OPA may fix new maximum prices for you in conformity with the provisions of section 2 of this regulation.

(b) An order issued under this section may also require you to give sales slips or receipts, to keep copies thereof in your files, and to prepare and keep such records as may be specified in the order. Those requirements will not, however, relieve you of your obligation to comply with the requirements of section 14 of RMPR 165 or of the various penalties for failure to do so.

SEC. 7. Definitions. (a) "New service" means a service you offer for the first time after December 31, 1944; it also means a service first offered to a new purchaser class after December 31, 1944.

(b) "Your district office of OPA" means the district office of the Office of Price Administration for the district where your place of business is located and from which your sales are made.

(c) "Your Price Control Board" means the Price Control Board of the OPA for the area where your place of business is located and from which your sales are made.

(d) "Independent retail distribution outlet" means a place of business which supplies laundry or dry cleaning services, is not owned by another laundry or dry cleaner, is not a unit of two or more laundry or dry cleaning outlets under joint ownership, and which performs no processing of laundry or dry cleaning.

(e) "Trading area" has the meaning ordinarily given it by the laundry and dry cleaning trade for the nature of services involved and the area to be served.

(f) "Fairly equivalent service" means a service accomplishing the same or equivalent utility supplied by the same type of supplier (such as chain store, independent retailer, power laundry, linen supply, diaper supply, commercial laundry, etc.).

SEC. 8. Delegation of authority. Any Regional Administrator of the Office of Price Administration and any District Director who has been authorized to act by the Regional Administrator having jurisdiction over his district, may establish, approve, disapprove or correct maximum prices established under the provisions of this regulation, except as otherwise provided.

SEC. 9. Geographical applicability. The provisions of this Revised Supplementary Service Regulation No. 44 shall be applicable to the 48 States of the United States and the District of Columbia.

This Revised Supplementary Service Regulation shall become effective January 28, 1946.

Issued this 23d day of January 1946.

CHESTER BOWLES,
Administrator.

Section 2.7 of Supplementary Regulation 14E is amended in the following respects:

1. Paragraph (t) is added to section 2.7 to read as follows:

(t) **Ceiling prices at wholesale for certain cotton rope, twine, yarn and cord; tobacco seed bed covers; and wide laundry cover cloth and woven table and laundry felts.** (1) This paragraph applies to all sales at wholesale of the following articles:

¹ 10 F.R. 1183, 2014, 4156, 7117, 7497, 7667, 9337, 9540, 9963, 10021, 11401, 12601, 12812, 13692, 13826, 14506, 14742, 15007, 15036.

(i) Certain cotton rope, twine, yarn and cord for which producers' maximum prices have been increased by section 2.9 of Supplementary Regulation 14E.

(iii) Wide laundry cover cloth and woven table and laundry felts for which producers' maximum prices determined under Maximum Price Regulation 118 have been increased by Supplementary Order 131.

(2) The maximum prices for sales at wholesale of the articles described above shall be the sum of the seller's maximum price in effect on September 24, 1945, and the amount by which the producer's maximum price was increased after that date. *Provided*, That no seller may determine his maximum price of an article under this paragraph unless he has secured from his supplier and has available for inspection by the OPA, a written notice stating that the manufacturer's maximum price for that article was increased after September 24, 1945, and the amount of the increase.

2. The last undesignated paragraph of paragraph (b) (6) is amended to read as follows:

This subparagraph (6) shall not apply to sales covered by paragraphs (r) and (t) of section 2.7.

3. Paragraph (q) (6) is amended by deleting the words "may charge an additional 4.35%" and substituting therefor the words "may add to his maximum price as established above, (i) a sum not to exceed 4.35% of the seller's net cost (as "net cost" is determined under subdivision (4) or (5)), and (ii) the freight charges from the supplier to the wholesaler's warehouse."

This amendment shall become effective January 23, 1946.

Issued this 23d day of January 1946.

TITLE 47—TELECOMMUNICATIONS

Chapter I—Federal Communications Commission

PART 1—RULES OF PRACTICE AND PROCEDURE

MISCELLANEOUS AMENDMENTS

The Commission, on January 16, 1946, effective immediately, amended § 1.102 *Intervention* by adding the following footnote:

NOTE: For specific rules regarding petitions to intervene in connection with applications under Title III, see § 1.385.

Amended § 1.271 *Petitions; contents* by adding the following footnote:

NOTE: For specific rules regarding petitions for rehearing in connection with applications under Title III, see § 1.387.

Repealed §§ 1.381 *Partial grants* and 1.382 *Designation for hearing* of the Commission's rules and regulations and adopted the following new sections to be substituted therefor:

§ 1.381 *Grants without a hearing*. Where an application for radio facilities is proper upon its face, and where it appears from an examination of the application and supporting data that: (1) The applicant is legally, technically and financially qualified; (2) a grant of the application would not involve modifica-

tion, revocation, or non-renewal of any existing license or outstanding construction permit; (3) a grant of the application would not cause electrical interference to an existing station or station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations; (4) a grant of the application would not preclude the grant of any mutually exclusive application; and (5) a grant of the application would be in the public interest, the Commission will grant the application without a hearing.

§ 1.382 *Partial grants*. Where the Commission without a hearing grants any application in part, or with any privileges, terms, or conditions other than those requested, the action of the Commission shall be considered as a grant of such application unless the applicant shall, within 20 days from the date on which public announcement of such grant is made, or from its effective date if a later date is specified, file with the Commission a written request for a hearing with respect to the part, or with respect to the privileges, terms, or conditions, not granted. Upon receipt of such request, the Commission will vacate its original action upon the application and set the application for hearing in the same manner as other applications are set for hearing.

§ 1.383 *Designation for hearing*. Applications will be designated for hearing in the following cases:

(a) Where it does not appear from an examination of the application that the applicant is legally, technically or financially qualified; or

(b) Where a grant of the application would require the modification, revocation, or non-renewal of license of an existing station or of any outstanding construction permit; or

(c) Where a grant of the application would cause electrical interference to an existing station or station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations; or

(d) Where it does not appear from an examination of the application that a grant of the application will be in the public interest.

(e) Where a grant of the application would preclude the grant of an application or applications mutually exclusive with it. However, the Commission may, if public interest will be served thereby, make a conditional grant of one of the applications and designate all of the mutually exclusive applications for hearing. Such conditional grant will be made upon the express condition that such grant is subject to being withdrawn if at the hearing it is shown that public interest will be better served by a grant of one of the other applications. Such conditional grants will be issued only where it appears:

(1) That some or all of the applications were not filed in good faith but were filed for the purpose of delaying or hindering the grant of another application; or

(2) That public interest requires the prompt establishment of radio service in a particular community or area; or

(3) That a grant of one or more applications would be in the public interest and that a delay in making a grant to any applicant until after the conclusion of a hearing on all applications might jeopardize the rights of the United States under the provisions of international agreement to the use of the frequency in question; or

(4) That a grant of one application would be in the public interest and that it appears from an examination of the remaining applications that they cannot be granted because they are in violation of provisions of the Communications Act, or of other statutes, or of the Commission's rules and regulations.

§ 1.384 Procedure when case is designated for hearing. (a) When an application has been designated for hearing, the Secretary of the Commission will mail a written notice to the applicant setting forth the action of the Commission designating the application for hearing, together with such statement of the Commission's reasons therefor as shall be appropriate to the nature of the application. In order to avail himself of the opportunity to be heard, the applicant, in person or by his attorney, shall, within 15 days of the mailing of the notice of designation for hearing by the Secretary, file with the Commission a written appearance stating that he will appear and present evidence on the issues specified in the statement of reasons furnished by the Commission on such date as may be fixed for the hearing. In cases involving applications for facilities other than AM broadcast, FM broadcast, international broadcast, or television, the applicant shall submit with his appearance an additional copy of his application and supporting documents.

(b) The Commission will on its own motion name as parties to the hearing:

(1) Any existing licensee or holder of an outstanding construction permit who, if the application were granted, would suffer electrical interference within his normally protected contour as prescribed by the Commission's rules and regulations.

(2) Any existing licensee or holder of an outstanding construction permit whose license or construction permit would have to be modified or revoked, or whose application for renewal of license would have to be denied, if the application in question were granted.

(3) Any person who, prior to the time the application in question was designated for hearing, had filed with the Commission a mutually exclusive application. Persons filing mutually exclusive applications after the application in question has been designated for hearing will be named as parties only if the Commission in its discretion deems such action advisable.

§ 1.385 Petitions to intervene. (a) Where the Commission has failed on its own motion to name as parties to a hearing any person specified in § 1.384 (b), such person will be permitted to partici-

pate in the proceeding by filing a petition to intervene showing that he comes within the provisions of § 1.384 (b). Where the petition to intervene is based upon a claim that a grant of the application would cause electrical interference to an existing station or a station for which a construction permit is outstanding within its normally protected contour as prescribed by the applicable rules and regulations, the petition must be accompanied by an affidavit of a qualified radio engineer which shall show either by reference to the Commission's Standards of Good Engineering Practice or to actual measurements made in accordance with the methods prescribed by the Commission's Standards of Good Engineering Practice that electrical interference will be caused to the existing station or station for which a construction permit is outstanding within the normally protected contour of the station.

(b) Any other person desiring to participate in the hearing may file a petition to intervene. The petition must set forth the interest of the petitioner in the proceedings and must show how such person's participation will assist the Commission in the determination of the issues in question. The Commission in its discretion may grant or deny such petition or may permit intervention by such persons limited to particular issues or to a particular stage of the proceeding.

(c) The granting of any petition to intervene shall not have the effect of changing or enlarging the issues specified in the Commission's notice of hearing unless the Commission shall on motion amend the same.

(d) Petitions to intervene under this section must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a petition to intervene after the expiration of such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the petition will not be granted.

§ 1.386 Motions to enlarge or change the issues. Motions to enlarge or change the issues may be filed by any party to a hearing. Such motions must be filed with the Commission not later than 15 days after the issues in the hearing have first been published in the FEDERAL REGISTER. Any person desiring to file a motion to enlarge or change the issues after the expiration of such 15 days must set forth the reason why it was not possible to file the petition within the prescribed 15 days. Unless good cause is shown for delay in filing, the motion will not be granted.

§ 1.387 Petitions for reconsideration or for rehearing. (a) Where an application has been granted without a hearing, any person aggrieved or whose interests would be adversely affected thereby may file a petition for reconsideration of such action. Such petition must be filed with the Commission within 20 days after public notice is given of the Commission's action in granting the application. Such

petition will be granted if the petitioner shows that:

(1) Petitioner is an existing licensee or permittee and a grant of the application would require the modification, revocation, or non-renewal of his license or construction permit; or

(2) That petitioner is an existing licensee or permittee and a grant of the application would cause interference to his station within the normally protected contour as prescribed by applicable rules and regulations; or

(3) At the time the application was granted, petitioner had a mutually exclusive application pending before the Commission; or

(4) A grant of the application is not in the public interest.

(b) Where an application has been granted or denied after hearing, petitions for rehearing may be filed within 20 days after public notice is given of the Commission's action in granting or denying the application. Petitions for rehearing by persons not parties to the Commission's hearing will not be granted unless good cause is shown as to why it was not possible for such person to participate earlier in the Commission's proceeding.

(c) Where a petition for reconsideration or for rehearing is based upon a claim of electrical interference within the normally protected contour of an existing station or a station for which a construction permit is outstanding, such petition must be accompanied by an affidavit of a qualified radio engineer which shall show either by reference to the Commission's Standards of Good Engineering Practice or to actual measurements made in accordance with the methods prescribed by the Commission's Standards of Good Engineering Practice that electrical interference will be caused to the station within its normally protected contour. If the claim of interference is not based upon actual measurements made in accordance with the Standards of Good Engineering Practice, it may be controverted by affidavit containing results of actual measurements made in accordance with the Standards of Good Engineering Practice.

(d) Each petition for reconsideration or rehearing shall be subscribed as provided in § 1.122 and served upon all parties participating in the hearing in the manner provided in § 1.141. In the case of a petition for reconsideration of a decision, order, or requirement made without a hearing, the party filing the petition shall serve the same in the manner provided in § 1.141 upon the party or parties to whom such decision, order, or requirement was directed.

(e) Any opposition to a petition for reconsideration or rehearing may be filed within 10 days after the filing of such petition.

(f) Petitions for reconsideration or rehearing filed under this section may request: (1) Reconsideration, either in cases decided after hearing or in cases of applications granted without hearing; (2) reargument; (3) reopening of the proceeding; (4) amendment of any finding; or (5) such other relief as may be appropriate. Such petition shall state specifically the form of relief sought and,

subject to this requirement, may contain alternative requests. Each such petition shall state with particularity in what respect the decision, order, or requirement or any matter determined therein is claimed to be unjust, unwarranted, or erroneous, and with respect to any finding of fact must specify the pages of record relied on. Where the petition is based upon a claim of newly discovered evidence, it must be accompanied by a verified statement of the facts relied upon, together with the facts relied on to show that the petitioner, with due diligence, could not have known or discovered such facts at the time of the hearing.

Proposed Rule

§ 1.388 *Special rules relating to action on applications for assignment and transfer of control.* (a) Applications for consent to the assignment of a construction permit or license for an AM, FM, television, or other broadcast station or for consent to the transfer of control of a corporation holding such a construction permit or license shall be filed with the Commission on Form F. C. C. No. 314 (Assignment of License) or F. C. C. No. 315 (Transfer of Control). Each application shall be accompanied by a copy of a proposed notice in a form prescribed by the Commission which notice the licensee or permittee shall cause to be published at least twice a week for the 3 weeks immediately following the filing of such application in a daily newspaper of general circulation published in the community in which the station is located. The notice shall state the terms and conditions of the proposed assignment or transfer, the name of the proposed assignee or transferee, and, further, that any other person desiring to purchase the facilities upon the same terms and conditions may file an application to this effect with the Federal Communications Commission within 60 days from the date of the first publication of the notice, which date shall be expressly set forth therein. Upon receipt of the application, the Commission itself will issue a similar public notice stating the terms and conditions of the proposed sale and stating that others may file competing applications for the same facilities upon the same terms and conditions.

(b) No action on any such application will be taken by the Commission for a period of 60 days from the date of filing, during which time any person desiring to purchase the facilities upon the same terms and conditions may file a competing application. In the case of such competing application, it shall be necessary for the applicant to execute only so much of the application form as relates to the proposed assignee or transferee—F. C. C. Form No. 314, Part II, and Form No. 315, Part III.

(c) If no competing application is filed during this 60-day period, the Commission will consider the original application upon its merits and will grant it if it appears from an examination of the application and supporting data public

interest will be served thereby; otherwise it will be designated for hearing. If, during such 60-day period, any other application is filed, all such applications will then be considered simultaneously upon their merits, and if, upon such consideration, it appears that the proposed assignee or transferee selected by the licensee is the best qualified and that the transfer would otherwise be in the public interest, the Commission will grant the original application without a hearing. If the Commission is unable to make such a determination upon consideration of the several applications, the original application and all competing applications will be designated for hearing, to be heard in a consolidated proceeding, to determine among other things which of the applicants is best qualified to operate the station in the public interest.

(d) If, at the conclusion of such hearing, the Commission is of the opinion that the proposed assignee or transferee selected by the licensee is the best qualified and that the transfer is otherwise in the public interest, an order will be entered granting the original application. However, if the Commission is of the opinion that one of the other applicants is the best qualified and that a transfer is otherwise in the public interest, an order will be entered denying the original application and stating that the Commission's consent to an assignment of the license or construction permit or to the transfer of control of the corporate licensee or permittee and such competing applicant enter into and file with the Commission within 30 days from the date of such order a contract for the assignment of the license or construction permit, or the transfer of control of the licensee or permittee, to such competing applicant upon the same terms and conditions as stated in the original application or upon such other terms and conditions as the parties may agree upon and which new terms and conditions the Commission shall find to be in the public interest.

(e) The provisions of this section shall not apply to the following cases: (1) Where there is a reorganization of a corporation which holds a license or construction permit, involving no change in beneficial ownership; (2) where there is an assignment from a decedent to his executor or administrator or from the executor or administrator to his duly appointed successor. This section, however, shall apply to an assignment or transfer from an executor or administrator to heirs, trustees, or third persons; (3) where there is an assignment from an individual or individuals to a corporation owned and controlled by such individual or individuals without any change in their respective interests or from a corporation to the individual stockholders controlling such corporation when there is no change in their respective interests; or (4) any other assignment or transfer that does not involve any change in the actual or beneficial ownership of the licensee.

It appearing, that the practice of transporting refrigerator cars empty from the East to certain Western States diminishes the use, control and supply of such cars, and that the loading of these cars in lieu of box cars will reduce the shortage of such cars; in opinion of the Commission an emergency requiring immediate action exists in the western section of the country: It is ordered, that:

Substitution of refrigerator cars for box cars. (a) (1) Any common carrier by railroad subject to the Interstate Commerce Act transporting;

(i) Westbound shipments in carloads originating at points shown as origin points in Agent L. E. Kipp's tariffs, I. C. C. Nos. 1492 and 1943, supplements thereto or reissues thereof, destined to points in the States of California, Southern Idaho (on the Union Pacific main and branch lines across Southern Idaho, including the line from Pocatello to the Montana-Idaho State line and the branches north of Blackfoot, Idaho), Arizona, Nevada, or Utah, or

(ii) Westbound shipments in carloads originating at points in the State of Utah and destined to points in the States of California or Nevada.

may, when freight to be transported is suitable, and facilities are suitable, for loading in RS type refrigerator cars and when such refrigerator cars are reasonably available, furnish and transport not more than three (except as provided in paragraph (a) (2) hereof) such refrigerator cars in lieu of each box car ordered, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car.

(a) (2) On shipments on which the carload minimum weight varies with the size of the car:

(i) Two (2) of the said refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of 40'7" or less, subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered;

(ii) Three (3) of the said refrigerator cars may be furnished in lieu of one (1) box car ordered of a length of over 40'7"

but not over 50'7", subject to the car-load minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(b) *Tariff provisions suspended—announcement required.* The operation of all tariff rules and regulations insofar as they conflict with the provisions of this order is hereby suspended and each railroad subject to this order, or its agent, shall publish, file, and post a supplement to each of its tariffs affected hereby, in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing such suspension.

(c) *Application of other orders.* Fourth Revised Service Order No. 180, shall not apply on cars utilized pursuant to the provisions of this order; and the provisions of Service Order No. 68, as amended, and all other orders of the Commission, insofar as they conflict with this order are hereby suspended.

(d) *Effective date.* This order shall become effective at 12:01 a. m., January 21, 1946.

(e) *Expiration date.* This order shall expire at 11:59 p. m., February 21, 1946, unless otherwise modified, changed, suspended, or annulled by order of the Commission. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

FREE TIME ON BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 14th day of January, A. D. 1946.

It appearing, that there is a critical shortage of box cars and that free time published in tariffs for unloading such cars at ports aggravates the shortage thereof; in the opinion of the Commission an emergency exists requiring immediate action to alleviate the box car shortage at all ports of the country:

It is ordered, That no common carrier by railroad, subject to the Interstate Commerce Act, shall:

(a) *Coastwise, intercoastal or foreign commerce.* Allow, grant or permit more

than a total of 7 days free time on box cars held for unloading in coastwise, intercoastal or foreign commerce at the point of transshipment from car to vessel or when held short of such transfer point. The provisions of this paragraph shall not be construed to require or permit the increase of any free time published in tariffs lawfully on file with this Commission.

(b) *Computation of free time.* (1) All Sundays and legal holidays shall be included in computing the free time provided in paragraph (a).

(2) The free time provided in paragraph (a) hereof shall be computed continuously from the first 7:00 a. m. after actual or constructive placement until final release, less actual time required to move a constructively placed car to point of unloading.

(c) *Definition of box car.* The term "box car" as used herein means freight equipment having a mechanical designation in the Official Railway Equipment Register prefixed by "X" or "V".

(d) *Extreme weather.* (1) During the period when weather conditions exist as described in Rule 8, Section A, Agent B. T. Jones' Tariff I. C. C. No. 3963, the provisions of this order are suspended. In lieu thereof the rules, regulations, and charges provided in lawfully published tariffs shall apply.

(e) *Effective date.* This order shall become effective at 7:00 a. m., January 18, 1946.

(f) *Expiration date.* This order shall expire at 7:00 a. m., March 1, 1946, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(g) *Tariff provisions suspended.* The operation of all tariff rules and regulations, insofar as they conflict with the provisions of this order is hereby suspended.

(h) *Announcement of suspension.* Each railroad, or its agent, shall publish, file, and post a supplement to each of its tariffs affected thereby; in substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of the operation of any of the provisions therein, and establishing the substituted provisions set forth herein. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901; 49 U.S.C. 1 (10)-(17))

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as Agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. FEDERAL COMMUNICATIONS COMMISSION.

WMOB, MOBILE, ALA.

PUBLIC NOTICE CONCERNING PROPOSED ASSIGNMENT OF LICENSE¹

The Commission hereby gives notice that on December 26, 1945, there was filed with it an application (B3-AL-518) for its consent under section 310 (b) of the Communications Act (47 U.S.C.A. 310) to the proposed assignment of license of standard broadcast station WMOB, Mobile, Alabama, from S. B. Quigley to Nunn Broadcasting Corporation, 600 St. Louis Street, Mobile, Alabama. The proposal to assign said license is based upon an agreement of December 3, 1945, between the licensee, S. B. Quigley (seller) and J. Lindsay Nunn and Gilmore N. Nunn (buyers) pursuant to which the former would sell to the latter all the equipment, properties, and facilities of WMOB of every kind and character save and except the real property upon which the station is located, for a total consideration of \$250,000, of which amount \$75,000 is to be held in escrow by the First National Bank of Mobile, Alabama, which amount is to be refunded if the application is not approved. The remainder of the purchase price (\$175,000) is to be paid by purchaser within fifteen days after Commission approval of the application, when conveyances shall be made for all the properties involved. If the Commission should approve the application and buyers refuse to carry out the terms of the contract, the \$75,000 is to be forfeited. If the application is not approved by the Commission on or before three months from the date of filing the application (December 26, 1945) either party thereafter may upon notice to the other con-

sider the application not approved, in which event the rights of the parties shall be as if the application had not been approved. Further information as to the proposed assignment may be found with the papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provision for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, such applications would be deferred unless applicants desired to follow the procedure proposed in the WLW decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notices. Pursuant thereto the Commission was advised that on January 1, 1946, notice would be inserted in the Mobile Press Register, a newspaper of general circulation at Mobile, Alabama, concerning the proposed transfer of the license and sale of the station and its facilities as set out in the application.

In accordance with the procedure proposed in the WLW decision and that announced in the Commission's release, no action will be had upon the WMOB application for a period of 60 days from January 1, 1946, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contracts.

WKNE CORP.

PUBLIC NOTICE CONCERNING PROPOSED TRANSFER OF CONTROL¹

The Commission hereby gives notice that on December 20, 1945, there was filed with it an application (B1-TC-473) for its consent under section 310 (b) of the Communications Act (47 USCA 310) to the proposed transfer of control of WKNE Corporation (licensee of standard broadcast station WKNE, Keene, New Hampshire) from Harry C. Wilder and other stockholders to Joseph K. Close, 3745 Edgevale Road, Toledo 6, Ohio. The proposed transfer of control of the above licensee is based upon a contract of November 20, 1945, between

Harry C. Wilder and Joseph K. Close, pursuant to which Wilder (stockholder of licensee and optionee as to other stockholdings therein) would sell to Close all of the 500 outstanding shares of common voting stock of WKNE Corporation for \$85,000 plus the excess of assets over liabilities at closing, not to exceed, however, \$20,000 and subject to further adjustments stated in the contract. Of the purchase price, \$5,000 was paid at the signing of the contract and \$80,000 is to be deposited in escrow with the Toledo Trust Company, Toledo, Ohio (which provision may be carried out by depositing Government bonds or other marketable securities of at least the market value of \$100,000). The arrangements are subject to Commission consent, which must be obtained before July 1, 1946, failing which the cash, securities and down payment shall be returned to the purchaser. Under the arrangements, Lyman Spitzer, Toledo, Ohio, Abbott K. Spencer, New Canaan, Connecticut, and Robert T. Colwell, New Rochelle, New York, will each hold minority interests in the company, for which each will pay approximately \$5,000. Further details pertaining to the application may be determined from the papers on file at the offices of the Commission.

In the Commission's decision of September 6, 1945, granting the application for transfer of control of the Crosley Corporation (Docket No. 6767), it was announced that public hearings would be held to consider proposed new rules and regulations for the handling of assignment and transfer applications including provisions for public notice by the applicant and the Commission of the filing of such applications and pertinent details in cases where a controlling interest is involved. Thereafter, on October 3, 1945, the Commission also gave public notice (10 F.R. 12926) that pending the issuance of such proposed new rules, hearing thereon, and final adoption, consideration of such applications would be deferred unless applicants desired to follow the procedure proposed in the Crosley decision, and supplement their applications so as to come within the framework of the announced procedure including the provision for public notice. Pursuant thereto, the Commission was advised on December 30, 1945, that notice would be inserted in a newspaper of general circulation at Keene, New Hampshire, of the proposed transfer of control of the licensee.

In accordance with the procedure proposed in the WLM decision and that announced in the Commission's release, no action will be had upon the WKNE application for a period of 60 days from December 20, 1945, within which time other persons desiring to apply for the facilities involved may do so upon the same terms and conditions as set forth in the above-described contract.

[SO 119, Order 56]

R. WALLACE AND SONS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 13 and 14 of Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's Maximum Prices.* R. Wallace and Sons, Wallingford, Connecticut, may increase by no more than 22 percent its maximum prices in effect

during October 1941 to each class of purchaser for silver plated flatware of its manufacture. The manufacturer may not add to the amount of increase permitted by this paragraph any adjustment under Revised Order No. 226 under Maximum Price Regulation No. 188 since the increase authorized by this paragraph includes the amount of the adjustment permitted by that order.

(b) *Ceiling prices of purchasers for resale.* A purchaser for resale shall determine his maximum price as follows:

(1) If during March 1942 he delivered or offered for delivery an article of silver plated flatware which meets the definition of "most comparable article" contained in § 1499.3 (a) of the General Maximum Price Regulation, except that it need not be currently offered for sale, and on which he has established an adjusted maximum price under either Order No. 226 or Revised Order No. 226 under Maximum Price Regulation No. 188 (adjustment on certain articles containing silver) he shall determine his maximum price on an article covered by this order according to the following steps:

Step 1: He shall determine the percentage of markup he has on that comparable article between his actual invoice cost (including the silver adjustment permitted by Order 226 or Revised Order 226) and his maximum price as adjusted under Revised Order No. 226.

Step 2: He shall apply the markup which he finds in Step 1 above to his actual invoice cost of the article covered by this order. The result is his ceiling price for his sales of that article to the same class of purchaser as that to which the maximum price of the comparable article applied.

(2) If a purchaser for resale cannot determine his ceiling price under the above method, he shall apply to the Office of Price Administration for the establishment of his ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices adjusted in accordance with this Order.

(c) *Terms of sale.* Ceiling prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(d) *Notification.* At the time of, or prior to, the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify each purchaser in writing of the method of determining adjusted ceiling prices for sales of the articles covered by this order. This notice may be given in any convenient form.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) *Effective date.* This order shall become effective on the 22d day of January, 1946.

Issued this 22d day of January 1946.

Administrator.

(i) "Cash" means payment on or before delivery. On sales involving the extension of credit, no dealer subject to this Order may charge more than 50¢ per ton in addition to the schedule prices.

(3) On sales involving quantities of one ton or more where the buyer loads the coal onto his conveyance at the dealer's yard or siding, the dealer shall apply a discount to the per net ton cash price of not less than 50¢ per ton.

(4) On deliveries of $\frac{1}{2}$ ton, an amount not to exceed 25¢ may be added to one-half of the ton price.

(5) The maximum price on all sales of small lots in quantities of less than one ton put into the buyer's car or other conveyance at the seller's yard shall be 45¢ per cwt. on fuels from Districts 10 and 15, and 60¢ per cwt. on fuels from District 14. In sales of this kind the buyer may be required to furnish the container. If the buyer does not possess a container, the dealer may require a deposit charge equivalent to the replacement cost when such container is furnished.

(d) *Service charges.* (1) Below and as a part of this section (d) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under preceding section (c). These charges may be made only if the buyer requests such services of the dealer and only when the dealer renders the service.

(i) A service charge not to exceed 50¢ per ton may be charged for the "carry in" or "wheel in" service. The "carry in" service means the service of carrying in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space to the buyer's fuel bin window. The "wheel in" service means the service of wheeling in solid fuel from the curb or point nearest and most accessible to the buyer's bin or storage space to the buyer's fuel bin window. These services do not include the service of carrying fuel up or down stairs.

(ii) An amount not to exceed 50¢ per ton may be charged for the service of "trimming." "Trimming" means the arranging and placing of the fuel in the buyer's bin. This service charge for trimming shall be applicable only to the amount of the fuel actually handled.

(iii) The prices set forth in the foregoing schedule are for untreated coal. The dealer may charge an amount not to exceed 10¢ per ton in addition to the scheduled prices when the coal is thoroughly and adequately treated, chemically or with oil, to allay dust or prevent freezing. (See also section (j) (1) of this amendment.)

(iv) A storage service charge not to exceed 80¢ per ton may be charged by the dealer and added to the per net ton cash price when a buyer who has purchased solid fuel leaves and stores it in the dealer's yard: *Provided*, That no charge for storage may be made unless the dealer receives a written statement (which the dealer shall preserve for not less than two years) from the customer,

requesting such storage, the coal which is the subject of the charge is earmarked as that customer's coal and is stored separate and apart from all other coal owned by the dealer or by other customers of the dealer prior to the beginning of the usual heating season, and the customer pays for all of the coal so stored upon its being placed in storage (except that when the same kind of coal is properly stored for the account of two or more customers, these customers' coal may be mingled in one pile with a proper record kept of the respective amounts belonging to each customer).

(e) *Transportation tax: Missouri State sales tax.* (1) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of fuel and lists it separately on any sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof, the State government or any political subdivision thereof (See § 1340.265 (b) of Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of $\frac{1}{4}$ ton or lesser quantities.

(2) *The Missouri State Sales Tax.* The seller may add to the prices listed in the schedule in paragraph (c) the sales tax required to be collected by the laws of the State of Missouri. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(f) *Addition of increase in supplier's price prohibited.* (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase cost or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(g) *Power to amend or revoke.* (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provisions thereof, at any time.

(h) *Petitions for amendment.* (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *License.* (1) Every dealer subject to this order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(j) *Sales slips and receipts; records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery of solid fuels governed by this order, give to his purchaser

an invoice, sales slip or receipt, and shall keep an exact copy thereof for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, showing the following information: the name and address of the seller and the purchaser; the kind; size and quantity of the solid fuels sold; the date of the sale or delivery and the price charged. In addition, he shall separately state on each such invoice, sales slip or receipt, the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That, a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated. This section shall not apply to sales of solid fuel in less than quarter ton lots unless requested by the purchaser.

(k) *Posting of maximum prices.* (1) Each dealer subject to this order shall post all of the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order in his establishment and make it available for examination by any person during business hours.

(l) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Kansas City, Missouri District Office of the Office of Price Administration.

(m) *Definitions and explanations.* (1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver and contracts and offers to do any of the foregoing. The terms "sale," "selling," "sold," "buy," "purchase," and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operated as an adjunct to any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but if this is unfeasible because of the absence of a regular driveway free from all foreign matter which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group," "price group" and their plurals, as used in this Order, refer to the production groups and/or price groups within each producing district as established by the former Bituminous Coal Division of the Department of the Interior and incorporated and/or modified in Maximum Price Regulation No. 120 by the Office of Price Administration.

(6) "District No." refers to the geographical bituminous coal producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(7) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified in this order.

(8) "Low volatile bituminous coal" means coal produced in the low volatile sections of the producing districts specified in this order.

(9) "Solid fuel" or "solid fuels" means all solid fuel except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite, all coke, including low temperature coke (except by-products, foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and sea coal used for foundry facings.

(10) The "size group numbers" used in the price schedule for coal from each producing district refer to the size groups of coal as numbered and defined in the appendix to Maximum Price Regulation No. 120 which relates to each such producing district.

(11) "Deep mine" or "underground mine" means a mine from which the coal is taken only from underground seams from which the overburden is not removed, and does not include a mine from which coal is taken by the stripping method.

(12) "Strip mine" means a mine producing coal by the stripping method and taking its entire production from the ground after removing all overburden.

(13) "Machine-cut coal" is coal produced from an underground mine which is cut mechanically by the use of a "cutting machine" before the coal is dislodged for loading either by hand or by mechanical means.

(14) "Solid-shot coal" is coal produced from an underground mine which is shot from the solid and is not cut mechanically by use of a "cutting machine" before the coal is dislodged for loading.

(15) Except as otherwise specifically provided herein or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Maximum Price Regulation No. 122, as amended, shall apply to the terms used herein.

(n) *Effect of this order on Revised Maximum Price Regulation 122.* (1) To the extent applicable, the provisions of this order supersede Revised Maximum Price Regulation No. 122.

(2) This Order No. G-7 shall become effective the 9th day of September, 1944.

NOTE: The provisions of this order which are subject to the Federal Reports Act of

1942, have been approved by the Bureau of the Budget.

NOTE: The maximum prices listed above in Tables 1, 2, and 3 are based upon an insulation thickness of 4 inches. For each inch of insulation over 4 inches, when ordered by the purchaser, the seller may make the following additional charges: 1 1/2¢ per square foot for flat areas, 2¢ per square foot for vertical areas; and 2¢ per square foot for sealed slopes, while for each inch of thickness under 4 inches, the seller shall deduct 1¢ per square foot. A 3/8 inch tolerance may be allowed with respect to any such measurements. The maximum prices listed above in Tables 4 and 5 are based upon an insulation thickness of 3 inches and over. For each inch or fraction of an inch of thickness of batts and blankets under 3 inches, the seller shall deduct 1¢ per square foot.

Where a machine or crew of two or more workers is used on installed insulation jobs, and the total charge as determined in accordance with the maximum prices listed in the tables set forth above, is \$40.00 or less, the seller may make an additional charge of \$10.00 for the job.

(b) *Work for which extra charges may be made.* Maximum prices for certain work for which extra charges may be made are shown below in categories (1) to (13), inclusive. The work listed in categories (1) and (2) will ordinarily be done by a sub-contractor but whether done by a seller or a sub-contractor the purchaser of an insulation job shall not be charged more than the seller or the sub-contractor, as the case may be, may

lawfully be charged under Revised Maximum Price Regulation No. 251. When the work listed in categories (3) to (13), inclusive, is performed by a seller or a sub-contractor, the seller or sub-contractor shall not charge more than the prices set forth in the specific category of work done.

Openings and closings. An extra charge may be made for openings and closings only in those cases where open-

ings and closings are not specifically included in the price applicable to Categories (1) to (29), inclusive, set forth in sub-section (a) of this section. The extra charges for openings and closings set forth in Categories (1) to (5), inclusive, set forth below in this sub-section (b) include payment for all labor and materials including that used for replacement of material where necessary.

(c) *Measurements.* It shall be the seller's responsibility to ascertain that all measurements are accurate. Measurements for exterior walls are to be taken overall, with no deduction for openings, except for sun porch walls, store fronts or similar areas where windows and door areas must be deducted. In the case of elevator wells, ventilators, skylights, monitors and pent houses on flat roofs the entire such area must be deducted where they are more than 16 square feet in area and extend through the flat ceiling area to be insulated. For attic floors outside gross dimensions may be taken. In measuring the height of knee walls, to the height between floors, joists and rafters add one foot for floor seal piling of granulated insulation. For slopes add six inches to length of clear span for capping intersecting surfaces. For flat ceilings which intersect slopes add one foot to length of span taken at right angles to intersecting slopes. For stairwell walls measurement may be taken as a rectangle from floor to ceiling and not as triangles.

In determining the total of the square foot area for each category of insulation installed a tolerance of 5 percent will be recognized.

(d) *Distant installations.* The maximum prices provided in paragraph (a) of this section shall apply to all installations made within 10 miles of the seller's

nearest place of business. For installations at more distant points the following additions may be made. Mileage shall be calculated to the nearest mile.

- (1) For installations from 10 to 25 miles distant, 1¢ per square foot.
- (II) For installations from 25 to 100 miles distant, 2¢ per square foot.
- (III) For installations distant 100 miles or more, 3¢ per square foot.

SEC. 5. Guaranteed price. A seller may sell an installed insulation job, covered by this order, on the basis of a guaranteed price but such guaranteed price must not be higher than the maximum price figured in accordance with the pricing methods and requirements of this order.

SEC. 6. Related and incidental construction work. If on any insulation job, any installed building materials are furnished or any construction services performed by the seller for which specific maximum prices are not fixed by this order, such materials and services shall be separately priced and billed on all invoices and sales slips. The maximum prices for such related and incidental construction work shall be determined under Revised Maximum Price Regulation No. 251, or as fixed by any applicable area pricing order issued by the Regional Administrator of Region VII.

- (3) The date the job was completed.
- (4) A description of the work performed and the total charged for the installed insulation job, and a separate statement of the related and incidental construction work performed.

(b) If requested by the purchaser, the seller shall furnish the purchaser an itemized statement showing the information contained in sub-paragraphs (1), (2), and (3) of paragraph (a) of this section, together with an itemized statement showing the number of square feet, type, thickness and unit price for each category of insulation installed, the total thereof, the area in which installed with reference to the drawing number, and any additional charges made pursuant to this order, together with a separate itemized statement of any related and incidental construction work performed. A copy of any such statements so furnished shall be kept by the seller at his principal place of business.

[Region V Order G-9 Under RMPR 122]

SOLID FUELS SOLD IN CRAWFORD COUNTY, KANS.

Pursuant to the authority vested in the Regional Administrator of Region V by § 1340.260 of Revised Maximum Price Regulation No. 122 and for the reasons stated in the opinion issued simultaneously herewith, it is ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels within the limits of Crawford County, Kansas. The prices set forth in this order are the highest prices that any dealer may charge when he sells or delivers any of such fuels at or to a point within the area covered hereby.

(1) *Solid fuels not covered by this order.* There are a few kinds and sizes of solid fuels covered by Revised Maximum Price Regulation No. 122 sold and delivered in the area covered by this order which are not included in and for which prices are not established by this order. The maximum prices of such solid fuels when sold by any person covered by this order shall continue to be the maximum prices for such fuels established by Revised Maximum Price Regulation No. 122, as amended. Such sales shall in all respects be governed by the provisions of Revised Maximum Price Regulation No. 122, as amended.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell, or in the course of trade or business buy, solid fuels at prices higher than the maximum prices set by this Order No. G-9; but less than the maximum prices may at any time be charged, paid or offered;

(2) Obtain higher than maximum prices by:

(i) Charging for a service unless such service is expressly requested by the buyer and unless specifically authorized to do so by this Order;

(ii) Charging a price higher than the schedule price for a service;

(iii) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him; or

(iv) Using any other device by which a higher than maximum price is obtained directly or indirectly.

(c) *Price schedule.* (1) Below and a part of this section is the maximum price schedule which sets forth maximum prices for sales by direct delivery of specified sizes, kinds and quantities of solid fuels.

MAXIMUM PRICE SCHEDULE

Description of fuel	Maximum price per ton produced at—	
	Under-ground mines	Strip mines
I. High volatile bituminous coal from mines in district 15 (Kansas):

(1) Lump; egg: all single-screened lump coal, all double-screened egg coal top size larger than 3" and bottom size larger than 1 1/4" (size groups 1, 2, and 3).....	\$6.30	\$5.42
(2) Fancy nut: double-screened coals with a top size larger than 2" but not exceeding 3", bottom size larger than 1 1/4" (size group 5).....	6.05	5.32
(3) Standard nut: double-screened coals with a top size larger than 2" but not exceeding 3", bottom size 1 1/4" and smaller (size group 6).....	5.90	5.12

(5) Special Stoker: double-screened coals with top size 1 1/4" and smaller, bottom size larger than 1/4" but not exceeding 3/8" (size group 11).....	5.25	4.62

(2) The prices set forth in the foregoing schedule are on a per ton basis (2,000 pounds to the ton). No dealer may add to the schedule prices any additional charge for the extension of credit.

(3) Prices set forth in the foregoing schedule are for untreated coal. The dealer may charge an amount not to exceed 10¢ per ton in addition to the Schedule prices when the coal is thoroughly and adequately treated, chemically or with oil, to allay dust or prevent freezing (See section (j)).

(4) A deduction from the prices set forth in the foregoing schedule of not less than 75¢ per ton must be made on yard sales of solid fuels covered by this order in quantities of one or more tons. "Yard sales", for the purposes of this order, means sales in which the buyer takes delivery at the dealer's yard.

(5) On delivered sales involving quantities of less than one ton, the dealer may add an amount not to exceed 35¢ to the fractional per net ton price set out in the foregoing schedule for each such delivery.

(d) *Service charges.* (1) Below and as a part of this section (d) is a schedule that sets forth maximum prices which a dealer may charge for special services rendered in connection with all sales under preceding section (c). These charges may be made only if the buyer

requests such services of the dealer and only when the dealer renders the services.

(1) An amount not to exceed 25¢ per ton may be charged for the service of "pull back" or "trimming". This is the service of arranging the fuel in the buyer's bin and is necessary only when the bin is being filled to, or near to, capacity. This service charge may be applied only to the tonnage actually moved in the trimming process and not to the entire amount put into the consumer's bin.

(e) *Transportation tax; Kansas State sales tax.* (1) *The transportation tax.* Only the transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set out by this order provided the dealer states it separately from the price of the fuel and lists it separately on any sales slip or receipt given to the buyer. This tax need not be stated separately on sales to the United States or any agency thereof, the State Governments or any political subdivision thereof (See § 1340.265 (b) of Revised Maximum Price Regulation No. 122). No part of this tax may be collected in addition to maximum prices on sales of ¼ ton or less quantities.

(2) *The Kansas State sales tax.* The seller may add to the prices listed in the schedule in section (c) the sales tax required to be collected by the laws of the State of Kansas. This tax shall be separately stated in the dealer's invoice, sales slip or receipt.

(f) *Addition of increase in supplier's price prohibited.* (1) The maximum prices set out by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereof; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(g) *Power to amend or revoke.* (1) The Price Administrator or the Regional Administrator of Region V may amend, revoke, or rescind this order, or any provisions thereof, at any time.

(h) *Petitions for amendment.* (1) Any person seeking an amendment to this order may file a petition for amendment in accordance with Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(i) *License.* (1) Every dealer subject to this Order is governed by the licensing provisions of Supplementary Order No. 72. This provides in brief that a license is required of all persons selling at retail commodities for which maximum prices are established. A license may be suspended for violation in connection with the sale of any commodity for which maximum prices are established. If a dealer's license is suspended, he may not sell any such commodity during the period of suspension.

(j) *Sales slips and receipts; records.* (1) Every person selling solid fuels subject to this order shall, either at the time of, or within thirty days after the date of a sale of delivery of solid fuels

governed by this order, give to his purchaser an invoice, sales slip or receipt, and shall keep an exact copy thereof for as long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, showing the following information: the name and address of the seller and the purchaser; the kind, size and quantity of the solid fuels sold; the date of the sale or delivery and the price charged; the mine name and index number if the coal is produced at a deep shaft or underground mine. In addition, he shall separately state on each such invoice, sales slip or receipt the amount, if any, of the required discounts, authorized service charges and taxes which must be deducted from or which may be added to the established maximum prices: *Provided*, That a dealer who is authorized to make a special service charge for chemical or oil treatment of coal need not separately state the amount of such service charge if he clearly indicates on the invoice that such coal is so treated: *And further provided*, That provisions of this section shall not apply to sales of solid fuels in less than quarter ton lots unless requested by the purchaser.

(k) *Posting of maximum prices.* (1) Each dealer subject to this order shall post all of the maximum prices set by it for all types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel.

(l) *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Wichita, Kansas District Office of the Office of Price Administration.

(m) *Definitions and explanations.* (1) "Persons" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States, or any agency thereof, or any other government, or any of its political subdivisions or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "Sale", "selling", "sold", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling solid fuel except producers or distributors making sales at or from a mine, a preparation plant operating as an adjunct to any mine, a coke oven or a briquette plant.

(4) "Direct delivery" means dumping or chuting the fuel from the seller's truck directly into the buyer's bin or storage space; but if this is unfeasible, because of the absence of a regular driveway free from all foreign matter

which might damage trucks and tires, then direct delivery means discharging the solid fuel from the seller's truck directly at the street curb or at the point nearest and most accessible to the buyer's bin or storage space.

(5) "Production group", "price group" and their plurals as used in this order refer to the production groups and/or price groups within each producing district as established by the former Bituminous Coal Division of the Department of the Interior and incorporated or modified in Maximum Price Regulation No. 120 by the Office of Price Administration.

(6) "District No." refers to the geographical bituminous coal producing districts as delineated and numbered by the Bituminous Coal Act of 1937, as amended, as they have been modified by the Bituminous Coal Division and as in effect at midnight, August 23, 1943.

(7) "High volatile bituminous coal" means coal produced in the high volatile sections of the producing districts specified in this order.

(8) "Solid fuel" or "solid fuels" means all solid fuels except wood and wood products, including all kinds of anthracite and semi-anthracite; bituminous and semi-bituminous and cannel coal; lignite; all coke, including low temperature coke (except by-product foundry and blast furnace coke, and beehive oven furnace coke produced in the State of Pennsylvania); briquettes made from coke or coal; and pea coal used for foundry facings.

(9) The size group numbers used in the price schedule for coal from each producing district refer to the size groups of coal as numbered and defined in the appendix to Maximum Price Regulation No. 120 which relates to each such producing district.

(10) "Deep mine" or "underground mine" means a mine from which the coal is taken only from underground seams from which the overburden is not removed and does not include a mine from which coal is taken by the stripping method.

(11) "Strip mine" means a mine producing coal by the stripping method and taking its entire production from the ground after removing all overburden.

2. The actual transportation costs from the seller's plant to the point of delivery at the lowest common carrier rate.

(c) *Applicability of distributor prices.* For the purpose of paragraph (a) of this order, sales and deliveries within the Philip, South Dakota area shall mean:

- (1) All sales made within the city limits of Philip, South Dakota and all sales

delivered from an establishment located in Philip, South Dakota.

(2) All sales of fluid milk by any seller at retail or from an establishment obtaining the major portion of its supply of milk from a seller at wholesale located within Philip, South Dakota.

(d) *Definitions.* (1) Standard milk shall mean pasteurized cow's milk having a butterfat content of not less than 3.2% or the legal minimum established by statute or municipal ordinance and distributed and sold for consumption in fluid form as whole milk.

(2) Sales at wholesale shall include all delivered sales to retail stores, restaurants, schools, hospitals, prisons and other institutions.

(3) Army or Navy means the War Department or the Department of the Navy of the United States, including such Departments' sales stores, commissaries, ships' stores, officers' messes and stores operated as Army canteens or post exchanges.

(3) "Pull-back" or "trimming" means to arrange and place coal in the buyer's bin by rehandling the same for the purpose of filling the bin; and the service charge for such "pull-back" or "trimming" shall apply only to the amount of coal so rehandled.

(4) "Carrying up or down stairs" means, generally, the labor involved in carrying coal up or down stairs for depositing in customer's bin or storage space.

(5) "Delivered" means placed in the buyer's bin or storage space by dumping, chuting, or shoveling directly from the seller's truck or vehicle, or where such delivery to the buyer's bin or storage space is physically impossible, by discharging at the point nearest and most accessible to the buyer's bin or storage space at which the coal can be discharged directly from the seller's truck.

(i) *Additional charge for delivering beyond customary free delivery zone.* For a delivery made to a place beyond the zone within which the seller has heretofore customarily made free delivery, an additional charge, not in excess of any such additional delivery charge regularly and customarily made by the seller in December 1941, may be added to the specific maximum prices established by this Revised Order No. G-1, as amended. A seller who was not in business in December 1941, or who if in business during that time made no such extra-zone deliveries, may take as his additional delivery charge the charge of his nearest competitor who was established in business and did make such extra-zone deliveries in December 1941.

(j) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more appli-

cable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(k) *Right to revoke or amend.* This Revised Order No. G-1, as amended, may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Revised Order No. G-1 shall become effective on the 29th day of December 1945.

[Region VIII Order G-10 Under RMPR 122]

SOLID FUELS IN OREGON

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region VIII of the Office of Price Administration under §§ 1340.259 and 1340.260 of Revised Maximum Price Regulation 122, and the Emergency Price Control Act of 1942, as amended, it is hereby ordered:

(a) *What this order does.* (1) This order establishes area maximum prices of certain solid fuels sold within the described trade areas of the State of Oregon. The applicable general provisions are contained in the paragraphs that follow. The special provisions and dollars-and-cents prices applicable in the individual trade areas are established by separate appendices in paragraph (i) hereof. A special provision of an individual appendix shall control if any such special provision is contrary to or inconsistent with any general provision of this order. This order applies only to the solid fuels for which maximum prices are provided and only in those trade areas covered by the appendices.

(2) The maximum prices established herein supersede all maximum prices of the specified solid fuels previously established under Revised Maximum Price Regulation 122 or any orders issued thereunder.

(3) Maximum prices established by this order may not be increased to reflect increases in mine costs, transportation costs or any other cost.

(4) Less than maximum prices may be charged, paid or offered.

(b) *To what sales this order applies.*

(1) This order applies to all sales of coal of the kinds specified in a particular appendix, where delivery is made, either to the premises of the buyer or on a f. o. b. yard basis, to any person within the trade area covered by that appendix. The maximum prices which may be charged therefor are set forth in such appendix.

(2) This order also applies to sales where delivery is made from a point within the trade area to a consumer at a point outside such trade area. On such sales and deliveries, the dealer may make a delivery charge in addition to the maximum price applicable to a sale covered by sub-paragraph (1) above, not greater than the extra charge he regularly made for the same or a similar delivery in December 1941. If a dealer made no similar delivery during December 1941, his maximum delivery charge is that of his nearest competitor who did make the same or similar delivery in December 1941.

(c) *Applicability of Revised Maximum Price Regulation 122.* Except as otherwise provided herein all provisions of Revised Maximum Price Regulation 122 remain in full force and effect, including, but not limited to, those sections covering prohibited practices, definitions, enforcement and licensing.

(d) *Taxes.* In addition to the maximum price established herein, the following amount may be collected, provided it is separately stated on the invoice: The amount of Federal Tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by the dealer, or an amount equal to the amount of such tax paid by any supplier and separately stated and collected from the dealer by the supplier from whom he purchased.

(e) *Definitions.* As used herein, the term:

(1) "Bituminous coal" means all bituminous coal including high volatile and low volatile coal and coal known to the trade as Sub-Bituminous A covered by the individual price tables in the appendices.

(2) "F. o. b. yard" means delivered at the dealer's place of business loaded on the purchaser's vehicle or other conveyance.

(3) "Delivered to buyers premises" includes delivery into the buyer's bin or storage facility where such delivery can be made directly from the dealer's truck by use of shovels and chutes or by direct dumping.

(4) "Ton" means 2,000 pounds net weight.

(5) "Carrying" or "wheeling" means moving the coal from the vehicle in which delivery has been made or from the most accessible point where the coal has been dumped or is being unloaded into the buyer's bin or other storage facility where the physical condition of the premises is such as to prevent unloading or dumping directly from the truck into such bin or other storage facility.

(6) "Dealer" means any person selling solid fuels of any kinds or sizes for which a maximum price is established by an appendix to this order for sales and de-

liveries made in the area covered by such appendix, but does not include transactions whereby a producer or a distributor makes a sale at or from a mine or preparation plant operated as an adjunct of a mine.

(f) *Records and reports.* (1) Each dealer shall maintain the records required in § 1340.262 (a) and (b) of Revised Maximum Price Regulation 122, except that the dollar-and-cent maximum prices established by this order need not be reported pursuant to paragraph (c) of said section.

(g) *Posting of maximum prices, sales slips, and receipts.* (1) Every dealer of solid fuels shall post at his place of business in a manner plainly visible to and understandable by the purchasing public, all of the maximum prices established herein which are applicable to his sales, and shall keep a copy of this order available for examination by any person during ordinary business hours.

(2) Every dealer subject to this order shall, either at the time of, or within thirty days after the date of a sale or delivery governed by this order, give to his purchaser an invoice, sales slip, or receipt, and shall keep an exact copy thereof for so long as this order is in effect or for so long as the Emergency Price Control Act of 1942, as amended, shall permit, whichever period is longer, showing the following information:

The name and address of the seller and the purchaser, the kind, size and quantity of solid fuels sold, the date of the sale or delivery, and the price charged. In addition, he shall separately state on each such invoice, sales slip, or receipt, the amount if any, of additional charges which are required to be separately stated by the terms of the order or appendix.

(h) *Petitions for amendment.* (1) Any person seeking an amendment of any provisions of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be addressed to and filed with the Regional Administrator of the Eighth Regional Office of the Office of Price Administration, San Francisco 3, California.

(i) Maximum prices for certain trade areas in the State of Oregon (See appendices attached hereto).

(j) This order may be revoked, amended, or corrected at any time.

This order becomes effective January 10, 1946.

Issued this 29th day of December 1945.

BEN C. DUNIWAY,
Regional Administrator.

INGTON

For the reasons set forth in an opinion issued simultaneously herewith, and under the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

(b) *Maximum prices.* The maximum price for painting and paperhanging services shall be the sum of a charge for labor, a charge for the materials used, and such other charges as may be permitted by this order. (iii) *Measurement of hours.* The total number of hours per workman

chargeable against any job is to be computed from the time such workman leaves the seller's shop or the previous job (whichever is later) until he completes the job (if he proceeds to another job) or until he returns to the shop (if he proceeds there directly), excluding, however, any stops or delays in transit. For any job extending into more than one day, time in transit to and from the job may be charged only once. The hours for which charges are made shall not exceed those shown in the seller's payroll nor those shown on any records or invoices which this order may require the seller to prepare, issue, or keep.

(3) *Other charges.* (i) *Mileage.* For necessary travel to and from a job outside a seller's "free delivery zone", mileage may be charged at the rate of 5 cents per mile per job per day. Mileage is to be measured along the most direct customary route between the seller's nearest place of business and the point at which the work is performed and may not be charged for travel within a seller's "free delivery zone." This zone is the area surrounding such place of business and extending for the following distance therefrom:

Seller's location:	Radius of seller's "free delivery zone" (miles)
Spokane County, Wash.	20
All other areas.....	5

(c) *Definitions.* (1) "Painting and paperhanging services" means the painting of any building, structure, or construction project, or any part, fixture, or equipment thereof, or the application of any wall paper or decorating or surface-finishing paper, or any paint, calcimine, shellac, varnish, or any other protective or ornamental coating thereto, and also includes all services incidental thereto, such as cleaning and preparation of surfaces, or cleaning of premises.

(d) *Jobs selling for more than \$200.00.* For jobs selling for more than \$200.00 the maximum price shall be the maximum price provided by this order or the maximum price provided by Sec. 7 of

Revised Maximum Price Regulation No. 251, whichever is lower. When determining a price under Sec. 7 for the purpose of this order, the seller shall use the sum of his labor costs, material costs, and other direct costs, and a margin not exceeding the margin used on the most comparable job in the period Jan. 1, 1939 to March 31, 1942, or, for sellers not in business in March 1942, a margin not exceeding 30% of the sum of labor, material, and other direct costs.

(e) *Guaranteed prices.* Where a seller offers to supply a painting or paperhanging service covered by this order on the basis of a guaranteed price, the seller agreeing to charge a fixed amount, such guaranteed price may not exceed the maximum price established by this order. With respect to such job the seller shall keep records and furnish invoices as required by other paragraphs of this order.

(f) Lower prices than the maximum prices established by this order may be charged, demanded, offered, or paid.

(g) *Records and invoices.* Every person making sales subject to this order must keep a record showing the time spent by each employee on each job involving painting and paperhanging services, the wage rate for such employee, the names and addresses of the buyer and seller, and the location of the job, and the date of its completion. Such seller shall also furnish each customer an invoice or sales slip on which he has itemized the same information and on which he has certified that the price charged does not exceed the price permitted by this Order No. G-14 under Revised Maximum Price Regulation No. 251. These records and duplicates of such invoices or such sales slips shall be kept by the seller at his place of business and shall be available for inspection by the Office of Price Administration.

(h) *Relation of this order to Revised Maximum Price Regulation No. 251.* Except as otherwise provided in this order, this order supersedes Sections 6, 7, and 8 of Revised Maximum Price Regulation No. 251 with respect to sales covered by this order. Except to the extent they are inconsistent with the provisions of this order, however, all other sections of Revised Maximum Price Regulation No. 251, together with all amendments thereto that have been or may be issued, shall apply to sales covered by this order. As to such services it also supersedes any other order issued under section 9 of Revised Maximum Price Regulation No. 251.

This order shall become effective November 26, 1945.

Issued this 8th day of November 1945.
